### JD105 Ghost Boo

1. Hoop felt in your hoop with a piece of tear away stabilizer. There are some really great felt pieces out now – glitter, glow in the dark etc. Have fun!

2. Attach hoop to your machine. First color is BLACK. You may want to use black bobbin thread also. This is optional. Sew out First Color. This is the background color of the letters.
3. Change to the color Orange. This is the top color of the word BOO
4. Change to the color Black. This will sew the bottom satin stitch and the eyes and mouth. A stop is issued after this.
5. Take the hoop out of the machine. Place a piece of felt under the hoop. If the felt has a right side, this will face down.

6. Carefully place the hoop back on your machine. You can now finish sewing the Ghost.
7. When the Ghost is complete, take the hoop off of the machine

8. Remove the Ghost from the hoop.
9. Trim the Ghost around the satin stitch.

You are now ready to display your Ghost. These Ghosts will stand with empty spools of thread placed in the opening.

Fun Ideas:

- Hide the salt and pepper with these Ghosts - make a Black Ghost and a White Ghost
- Use them for party favors and place over bubbles
- Fun place setting markers for your table
- String them with black yarn and make garland

Most of all HAVE FUN!
